Hi, I'm Hardik I'm a B.Tech Computer Science student currently learning Web Development and building my foundation one project at a time. I'm working with: • HTML & CSS • JavaScript • Git & GitHub • Responsive Web Design • Web fundamentals I learn by building rather than only watching tutorials. Along the way, I document what I learn, the mistakes I make, and the projects I build. My current focus: → Strengthening my Web Development fundamentals → Building real-world projects → Improving my problem-solving skills → Learning in public I'm at the beginning of the journey, and I'm excited to see where it goes.
